STL bridges the Digital Divide between the 'haves' - those with access to technology and the 'have-nots' – those without access. Computers are an integral part of students' education and the repercussions of not having access to current technologies can result in late assignments, deducted marks and overall lower performance in school and a lack of self-esteem. STL has placed over 1500 computers to date and is targeting another 500 computers to be placed by year's end! The Kitchener-Waterloo expansion is made possible by generous funding from Sapphire Technologies Canada.

About Sky's the Limit Youth Organization:

Sky's the Limit Youth Organization, founded in 2004 by Lara Tavares, is dedicated to addressing the widening Digital Divide in Canada by providing students with access to the tools and resources they need to pursue the infinite opportunities and possibilities available to them. Sky's the Limit provides refurbished computers to students from under-resourced communities. For more information, please visit www.stlonline.org

About Pathways to Education Kitchener:

There are two neighbourhoods in Kitchener that have opened their doors to the Pathways to Education Program. Both communities are diverse, with a wealth of languages and cultures represented among the participants. The two neighbourhoods, both of which are in the south-central core of Kitchener, have a high percentage of families living in public housing and new Canadians settling in the areas. Most importantly, with two of the highest dropout rates in Kitchener, the families in these neighbourhoods are eager to see the program succeed in their communities.
